

A few steps lead to the Flustix trustmark

To receive the Flustix plastic-free certification you will have to go through the following steps:

- Please fill in the request for an offer - flustix PLASTIC FREE trustmarks" and sign and stamp it ([Download here](#))
- Add the following information:
 - Description of product including how to use it (picture if possible)
 - Complete material composition (of each used material, additive or ink/color/masterbatch in %-share of total product mass)
- Safety data sheets of all used materials
- In addition to the documents that you can send by e-mail, samples of any size or version of the products to be certified are required. To do this, please send two samples to each of the addresses written below
- After all documents have been completed and the samples have arrived, DIN CERTCO calculates your individual offer. Up to this point, no costs will occur
- Once you have sent an order confirmation, the verification and certification process starts
- For the entire process, please expect about 6-8 weeks after placing the order. If you have any questions, we are always at your disposal
