

A few steps lead to the Flustix trustmark

To receive the Flustix plastic-free certification you will have to go through the following steps:

- Please fill in the online request for an offer - flustix PLASTIC FREE
- Add the following information:
 - Data sheets of material composition (of each used material, additive or ink/ color/masterbatch in%-share of total product mass)
 - Safety data sheets of all used materials
- The data sheets can be uploaded online while filling in the online form. After successful completion you will receive a confirmation e-mail.
- In addition, samples of any size or version of the products to be certified are required. To do this, please send two product samples to each of the addresses written below
- After completion of the online form and the product samples have been arrived, DIN CERTCO calculates your individual offer. Up to this point, no costs will occur
- Once you have sent an order confirmation, the verification and certification process starts
- For the entire process, please expect about 6-8 weeks after placing the order. If you have any questions, we are always at your disposal
